

# Six Pole Trailer Electric Plug

LT = Left Turn Signal Lights .....	Yellow
RT = Right Turn Signal Lights .....	Green
TM = Running Lights or Tail Markers .....	Brown

Note: Brake lights are through the LT & RT connection. There is no "brake light" connection.

S = Electric Brake Connection .....	Blue
A = Accessory or Auxiliary Power - Always Hot .....	Red

Note: Some manufacturers use "S" for Accessory and "A" for Brakes.

GD = Ground .....	Black or White
-------------------	----------------

Note: Always use a ground wire connection to avoid erratic brake and light functioning.
